Raleigh, NC 27609

Don:

We wish to thank you and your design team for the work you have done on our website. Your professionalism and patience has worked wonders in not only transforming our site but we have received nothing but compliments both from within the Association as well as outside.

It has been such a pleasure working with you to establish our website. In addition to your obvious design talents, it is clear that your credentials include a thorough knowledge of the programming and mechanisms for optimal web positioning.

What I do understand is how accurately you were able to tune in to what was most important to us and reflect the personality of our community as well as convey the information we wanted to make available.

It is so pleasing to know that there are still businesses around that somehow manage to seamlessly combine a top quality product with a focused attention to customer needs and individual requirements. Every time we made a request you gave us more than we expected, guiding us with patience and diplomacy to decisions we would love. Your prompt responses and wise suggestions kept the process moving so we didn't get stuck in the idea stage.

The Craftsmanship of the end result, attention to detail and the Quality of design really has exceeded our wildest expectations. We have not the slightest doubt that it will be a show site for us for many years to come!

In addition, your team not only know what you are doing but bring "Customer Service" to a new level, far exceeding expectations and that is why we will be spreading the word...

**"For Quality...and Customer Service- Use Bizcom Web Services! "**

With our sincere appreciation,

A handwritten signature in black ink that reads "Kevin Walls". The signature is written in a cursive, flowing style.
